Tuzla, Bosnia and Herzegovina	lejla.karic@example.com	linkedin.com/in/lejla-karic	github.com/lejlidotdev

Professional Profile

Backend Developer with 3 years of experience building scalable server-side applications using Java, Spring Boot and PostgreSQL. Experienced in REST API design, relational databases, authentication, authorization, testing and performance optimization.

Technologies

Backend	Java, Spring Boot, Spring Security, Hibernate, JPA
Databases	PostgreSQL, MySQL, Redis
API	REST, OpenAPI/Swagger
DevOps basics	Docker, GitHub Actions
Testing	JUnit, Mockito
Tools	Git, Maven, Postman, Jira

Work Experience

Backend Developer | NovaTech Systems, Tuzla | February 2022 - Present

- Developed REST APIs for a financial web platform.
- Implemented JWT-based authentication and role-based authorization.
- Optimized SQL queries and improved response times for data-heavy endpoints.
- Wrote unit and integration tests using JUnit and Mockito.
- Collaborated with frontend developers on API contracts and release planning.

Selected Projects

Online Payment Dashboard

Technologies: Java, Spring Boot, PostgreSQL, Redis, Docker

- Implemented transaction and account management APIs.
- Added pagination, sorting and advanced filtering.
- Introduced caching for frequently requested financial summaries.

Internal Notification Service

Technologies: Spring Boot, RabbitMQ, PostgreSQL

- Created asynchronous message processing for email and system notifications.
- Implemented retry logic and delivery status tracking.
- Documented endpoints with Swagger/OpenAPI.

Education

Bachelor of Software Engineering, University of Tuzla, 2017 - 2021

Soft Skills

- Analytical thinking
- Independence

- Problem solving
- Team communication
- Organization
- Accountability for deadlines
