Professional Profile

Senior Full Stack Developer with 7+ years of experience developing enterprise web applications. Specialized in Angular, React, Node.js and Java Spring Boot. Experienced in application architecture, mentoring, microservice integration and CI/CD-enabled delivery.

Technologies

Frontend	Angular, React, TypeScript, RxJS, NgRx
Backend	Node.js, Express, Java, Spring Boot
Databases	PostgreSQL, MongoDB, Redis
Cloud/DevOps	Docker, AWS, Kubernetes basics, GitHub Actions
Testing	Jest, Cypress, JUnit
API	REST, GraphQL

Work Experience

Senior Full Stack Developer | CodeBridge GmbH, Remote | May 2020 - Present

- Led development of a modular SaaS platform for business process management.
- Designed frontend architecture and reusable Angular modules.
- Developed backend services in Node.js and Spring Boot.
- Introduced code review standards and mentored junior developers.
- Supported CI/CD workflows and Docker-based deployments.

Full Stack Developer | DigitalCraft, Banja Luka | January 2017 - April 2020

- Built web applications for e-commerce and logistics clients.
- Integrated external APIs and implemented administrative dashboards.
- Maintained existing applications and improved performance of legacy modules.

Selected Projects

SaaS Workflow Platform

Technologies: Angular, Node.js, PostgreSQL, Redis, Docker

- Defined frontend module structure and shared component strategy.
- Implemented role-based access control and workflow APIs.
- Optimized dashboard performance for high-volume data views.

Logistics Tracking System

Technologies: React, Spring Boot, PostgreSQL, AWS S3

- Built an interactive shipment tracking dashboard.
- Integrated map services and status history views.
- Implemented CSV export and operational reports.

Education

Master of Computer Science and Informatics, University of Banja Luka, 2013 - 2016
